

London Marathon Fundraising Materials

To help you spread the word about your London Marathon fundraising, we've created **official email banners** that you can include in your messages to friends, family, and colleagues. Using these banners is a simple way to make your emails more eye-catching and encourage donations!

Here's how to use them:

- **Click on the image you want to use, then**
- **Save the banners**
- **Add the banner to your emails**

In Gmail or Outlook, simply insert the image within your signature and include your **personal fundraising page link** in the signature so supporters can donate easily

- **Share with your network**

Send your emails to friends, family, colleagues, or any supporters you'd like to update on your London Marathon journey!
