

Open Clinical Trials in the UK

There are many things to think about when considering taking part in a clinical trial. For this reason, we would encourage you to use this information to discuss your options, and the clinical trials available to you, with your oncologist. We are happy to answer any questions you may have on the trials listed, though please be aware we cannot provide advice in relation to individual patient cases.

Whilst we try to update this document as frequently as possible, there may be information regarding a specific clinical trial that is missing or no longer accurate. Please contact info@bcrt.org.uk if you are aware of any corrections.
